

A woman in a light green dress and a wide-brimmed hat stands in a courtyard. She is positioned next to a tall, dark wooden pillar. The background is a light-colored wall with shadows cast by a tree and a window. The scene is bathed in warm, golden light, suggesting late afternoon or early morning. The overall mood is serene and elegant.

KOLMÖ

Handcrafted Lighting from Spain

Kolmö Studio was established in 2021 by Alfredo Benito and Sheila Escudero in Burgos, Spain. After six years of drawing inspiration and creating synergy between architecture and interior design, we decided to bring this deeply personal project to life.

From our home workshop, we specialize in designing and crafting lighting pieces and artworks using natural stones. Each piece is meticulously handcrafted with the utmost passion, blending design, art, avant-garde elements, simplicity, and elegance.

Our use of pure, pristine materials imparts a sense of timelessness and functionality. Natural stone stands at the core of our creations, with its weathered fractures enhancing each design and reflecting the material's transformation and history. At our studio, we embrace this natural asymmetry to craft truly unique pieces.

"We pour our soul, hands, and ideas into each piece to create art that illuminates."

"Art that Illuminates"

KOLMÖ

Handcrafted Lighting from Spain

All our designs are exclusively tailored to the professional sector. We adapt to any space and project requirements.

We collaborate with interior design studios, architecture firms, art exhibitions, as well as design, decoration, and lighting stores.
